Exam : **1z1-1028**

Title : Oracle Planning Central Cloud
Service 2018 Implementation
Essentials

Vendor : Oracle

Version : DEMO

NO.1 Your client wants to create a supply plan that only considers sales order and disregards forecast demand within a specific demand horizon. What must you do to accomplish this?

- A.** Manage Plans > Search and select demand plan > Demand tab > General tab > Check Demand Time Fence Control
- B.** Manage Plans > Search and select supply plan > Supply tab > General tab > Advanced Options > Check 'Create time fence'
- C.** Manage Plans > Search and select demand plan > Demand tab > General tab > Select 'Do no spread forecast'
- D.** Manage Plans > Search and select supply plan > Supply tab > Organizations and Schedules tab > Remove all demand schedules
- E.** Manage Plans > Search and select supply plan > Supply tab > General tab > Check Demand Time Fence Control

Answer: E

NO.2 Which statement applies only to the planning of back-to-back items and not standard items?

- A.** Must have added sourcing rules to the Global Order Promising assignment set.
- B.** Must use Global Order Promising and Supply Chain Orchestration to release and create new supplies
- C.** Planning pegs reserved supplies to sales orders.
- D.** Planning analyzes supply shortages and capacity overloads using any of the standard planning tools.
- E.** Planning collects bookings or shipments history to forecast items.

Answer: B

Planning for back-to-back items

- Collect back-to-back sales orders, supplies, and reservations.
- Create supply plans for back-to-back items.
 - Planning recognizes sales order reservations to the supplies.
 - Planning pegs reserved supplies to sales orders for back-to-back items (and standard items).
- Analyze supply shortages and capacity overloads using any of the standard planning tools.
- If a back-to-back sales order does not have a supply, planning does recommend supply; however, the supply cannot be released from planning for back-to-back items.
 - Planners can notify order management to check the order line, use GOP to promise the line, and send the supply recommendation to Supply Chain Orchestration.

Planning Central creates back-to-back supplies when a back-to-back sales order does not have a reserved supply and the item is marked as "Back-to-back Enabled", which is an item-organization attribute.

By default, the planned order quantity equals the demand quantity. Order modifiers can be applied. Planned order quantities can be less than the demand quantity when existing supplies are suggested for the sales order.

Planned orders for back-to-back enabled items cannot be released from Planning Central. Use GOP and SCO to release and create new supplies for back-to-back orders.

SCO cannot accept releases from planning for back-to-back items.

NO.3 The structure of the Plan Summary Layout is a predefined _____.

- A. Set of Exceptions
- B. Supply Demand Workbench
- C. Material Plan view
- D. Group of Reports
- E. Set of Infotiles

Answer: E

NO.4 You are running a demand plan for the first time and you want to generate forecast for the next six months.

Which two demand plans run options should be selected? (Choose two.)

- A. Under data refresh options, select "Refresh with selected current data" and chose sales orders.

- B. Select sales orders as forecast profile.
- C. Under data refresh options, select "Refresh with current data."
- D. Select forecast shipments as forecast profiles.
- E. Under data refresh options, select "Refresh with demand planning data."

Answer: B,C

NO.5 You want to be able to filter your data by the planner code attribute on the item. Where can you go to do this?

- A. The process "Add Levels and Attributes" must be run to associate new attributes.
- B. Configure Planning Analytics > Levels and Attributes tab
- C. The process "Associate Measure Catalog Attributes" must be run to associate new attributes.
- D. Configure Planning Analytics > Measure Catalog
- E. Enable planner code on Planning Analytics page.

Answer: E

NO.6 Another planner has previously created a supply plan, but you now need to make some changes so that you can do some 'what-if' analysis. How can you go about duplicating this plan?

- A. Run process "Duplicate supply plans" with existing plan as parameter.
- B. You cannot duplicate plans. You must create a completely new supply plan.
- C. You cannot duplicate a plan that is not owned by you.
- D. Manage Plans > Search and select supply plan > Actions > Duplicate.
- E. Manage Plans > Search and select supply plan > Actions > Edit Plan Options > Select Copy.

Answer: D
