Accurate exam material ensure you pass for sure by your first attempt - VCE4Plus

**Exam** : **250-447**

**Title** : Administration of Symantec  
Client Management Suite 8.5

**Vendor** : Symantec

**Version** : DEMO

**NO.1** What is the most likely cause when an endpoint that is in Cloud Enabled Management mode is unable to retrieve packages from a site server defined properly in the "Default Internet Site"

- A.** The user added the site server to the Internet Gateway with TCP Port 4726 instead of port 443
- B.** The user added the site server to the notification server as TCP port 443 instead of port 4726
- C.** The user added the site server to the notification server as TCP port 4726 instead of port 443
- D.** The user added the site server to the Internet Gateway with TCP Port 443 instead of port 4726

**Answer:** B

**NO.2** An asset's Status value unexpectedly changes to Retired.

What is the most likely IT Management Suite setting that would be the source of this status change, other than human error?

- A.** Inventory to Asset Synchronization
- B.** CMDB Rules
- C.** Purging Maintenance
- D.** Resource Merge Rule

**Answer:** D

**NO.3** A company has an environment where only some computers have the Symantec Workspace Virtualization (SWV) agent installed.

What happens to computers without the SWV Agent when an administrator distributes an MSI application through a Managed Delivery policy to all company computers and installs the application into a virtual layer?

- A.** The application installation fails
- B.** The SWV agent is automatically installed; then the application is installed into a virtual layer
- C.** The application is installed as non-virtual, but the application is moved into a virtual layer after the SWV agent is installed
- D.** The application is installed as non-virtual

**Answer:** D

**NO.4** An administrator wants to create a report using a cube and pivot table in IT Analytics. The report needs to display the count of assets (computer, monitor, and virtual machine) by location as displayed below.

Which items will produce the report results?

Drag and drop the correct items to the correct fields under "View Configuration" of the Asset cube report.

Asset Count	Location - City
Asset - Name	Asset - Type
